

*Elegant  
Leather Floors*

# *Beauty, Elegance, Sophistication*

Nova Distinctive Floors proudly introduces our luxurious Leather Floors. These elegant floating floors are beautifully sophisticated, and remarkably durable. They are made from real bonded leather featuring many exotic patterns and rich colors.

Our stylish leather floors also boast a green story. The leather is a by-product of the food industry as well as the leather industry. These chrome-free recycled leather strips are expertly bound with natural latex to form our top layer. The top layer is then coated for durability with an innovative water based polyurethane finish. Our center layer is FSC certified High Density Fiber board. The underlayment layer is our eco friendly cork, which possesses many natural benefits.

All of the above provides an excellent solution for a beautifully unique floor while respecting our environment.

Alligator Gold

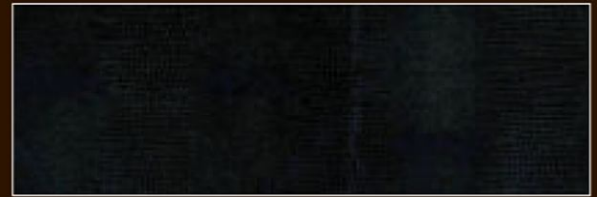

Bison Gold

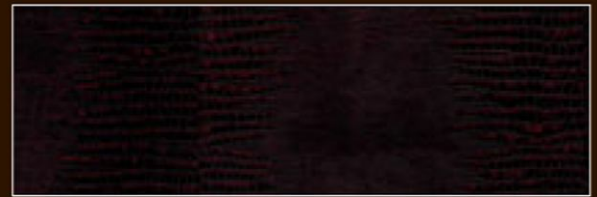

Bison Oxyd

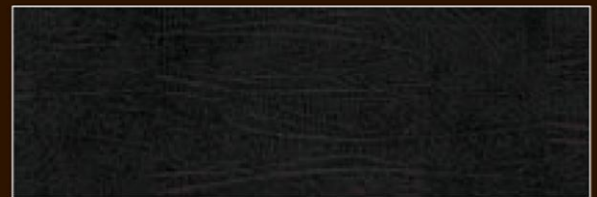

Bison Silver

Coordinating wall base available.

Custom colors are available for 2000 sq. ft. plus orders.

# Nova Leather

Top layer is produced using genuine, recycled, chrome-free leather, natural latex, natural oils and natural tanning agents. It is 2.5mm thick and has three coats of high resistant polyurethane UV protection.

Center layer is our high quality, FSC certified, high density fiber board utilizing the UNICLIC system.

The bottom layer is 1.2mm cork underlayment.

## Specifications

Dimensions		12" x 36" planks
Total Thickness		10.5mm
Classification	EN 685	Domestic 23, Commercial 31
Total Weight		31 pounds per carton
Residual Indentation	EN 433	Max 0.1mm
Fire Class	EN 13501	Cfl S1
Fire Rating	EN ISO 9239-1	B-1
Static	EN 1815	<2kv
Impact Sound Reduction	EN ISO 717-2	17 dB
Thermal Rating	EN 12524	0.05m <sup>2</sup> K/W
Resistance to Chemicals	EN 423	Good
Dimension Stability	EN 434	0.05%
Lightfast	ISO 105	7
Coefficient of Friction	EN 51130	R9
Office Chair Suitability	EN 425	Chair Type W

## Benefits

- ❖ LEED Points, No VOC or Formaldehyde
- ❖ Uniquely beautiful floor
- ❖ Variety of colors and patterns
- ❖ Very durable
- ❖ Easy to install and maintain
- ❖ Antistatic
- ❖ Thermal insulation
- ❖ Sound insulation
- ❖ Suitable for under-floor heating systems
- ❖ Beneficial to those with allergies
- ❖ Comfortable
- ❖ Precision engineering
