

# *New* *Corkstone*

The durability of linoleum combined with the warmth of natural cork makes Corkstone very unique. The technical characteristics of both materials combine to make a truly exceptional floor. The scope of application of the Corkstone line with its authentic stone appearance ranges from the kitchen to the bathroom to commercial applications. The lightly textured surface also allows for large areas to be virtually seamless.

# Technical Data

## NovaCork™

### General Information:

- Natural and Environmentally Friendly
- Thermal & Acoustic Insulating
- Durable
- Easy, Glueless Installation
- Hypoallergenic
- Antistatic

### Composition:

- 2mm or 3mm Cork Surface Layer
- 6.8mm HDF Click Center Board
- 1.2mm Cork Underlayment

### Sound Rating:

- 17DB

### Fire Class Rated:

- Class B2

### Thermal Insulation:

- RTD133

### Specifications:

- 7/16" or 3/8" x 12" x 36"
- 6 or 7 Planks, 18.08 sq/ft or 21 sq/ft per carton
- Net Wt. 34 lbs. Per carton (Sold in full cartons only)

### Warranty:

- 10 years Light Commercial Wear Warranty
- 20 years Residential Wear Warranty (Please ask for a copy of Nova Distinctive Floors' warranty)

## Nova Corkstone™

### General Information:

- Very Durable
- Easy to maintain + keep hygienically clean
- Anti-static
- Anti-bacterial
- Can be used with radiant heat
- Pollutant-free

### Composition:

- Top Layer - 2mm
- Middle HDF - 6.8mm
- Bottom Layer Cork - 1.2mm

### Sound Rating:

- 20 DB

### Fire Class Rate:

- EN-ISO 9239-1 / CFL s 1 (B 1)

### Specifications:

- 3/8" x 12" x 36" (nominal)
- 6 planks, 18.08 sq/ft per carton
- Net Wt. 34 lbs (Sold in full cartons only)

### Warranty:

- 10 years Light Commercial Wear Warranty
- 20 years Residential Wear Warranty (Please ask for a copy of Nova Distinctive Floors' warranty)

## NovaCork Underlayment™

### General Information:

**Description:** Sound deadening underlayment used under hardwood, ceramic tile, laminate floorings in commercial and residential applications.

**Sizes:** 6mm & 12mm sheets and 6mm rolls.

**Floatation Tests:** None after 3 hours immersion in boiling water.

**Binder:** Resin of polyurethane

**Base:** Composition of cork granules. Size 1-3

**Density:** 180-220 kg/cubic meter (11.23-13.73 lbs/cubic foot)

**Tensile Strength:** 5-10 kg-sq/cm

**Recovery (%):** >= 75

**Flexibility:** F5 Pass

**Thermal Conductivity:** 0.0410 kcal/mh°c

**Compression (%):** 25-35

**Dimensional:** Length & Width: +/- 0.5mm

Thickness: +/- 0.2mm

Acoustical Rating: ASTM E 90-04; E 413-04, 492-04; E 986-04; E 986-06
